

Our 3rd Annual Face Inks Eyebrow Pigment Sale \$20.00 Per Bottle

(Regularly \$25.00 - Offer valid July 1st - 31st, 2012)

Rose Marie's tips for beautiful eyebrows for every client;

Sandalwood: great for warm brunettes, redheads and strawberry blondes; warm it with Butterscotch.

Moccasin: golden brown; use straight if light to fair skin tone; keep warmth with Butterscotch on medium skin tone.

Hershey Kiss: neutral-medium brown, warm with Butterscotch on olive skin tones. Add Henna for an auburn effect.

Chocolate Mousse: deep medium brown, warm with Butterscotch. Lighten with Hershey Kiss.

Sandy Blonde: neutral, fair blondes fair complexions, warm with Butternut.

Coffee Bean: deep brown; warm with Butterscotch, add Henna or Cocoa if more auburn tones are desired.

Bamboo Blonde: light taupe blonde, medium blonde, warm or lighten with Butternut.

Face Inks colors are very heavily concentrated with pigment particles for thickness, not glycerin, so it can safely be diluted with a drop of distilled water.

Needle tips...

I use a 5-Slope for most eyebrows unless I want more of a powdery brow, then I will use a 5-Shader. Most of my brows are a combination of hair strokes and shading and I can easily achieve this with a 3-Slope or a 5-Slope.

For color corrections, I use a 5-Shader and do not go as deeply as I would on a normal procedure. I move faster and lighter. Before applying my corrective formula, I always smear it over the area to be corrected and allow it to dry. This allows me to see if my formula is creating the correction that I want.
