

#340 Cayenne

#340 Cayenne is one of our most popular lip shades. A beautiful warm, bricky-neutral shade, **#340 Cayenne** works on *both warm and cool* complexions for a deeper lip tone.

Check out Rose Marie's Needle Tips for #340 Cayenne:

For a more dramatic effect: For clients that want a bit *more drama* and to *maximize the depth* of this shade, I use a 3-Outline needle for the outermost line. To widen the line, I would use the 5-Shader or 7-Liner needles. If you decide to shade down, I suggest utilizing the 7-Liner needle.

For more definition: If my client has a very *full lip and wants strong definition*, I use the 3-Outline needle, and then a 4-Flat needle to widen the line and shade down.

For a softer line: If my client wants a *softer line*, I will select either the 5-Shader or 7-Liner needle configurations to line and then use a 9-Magnum needle to shade down.

* I would **NOT** recommend using this shade for a full lip.

Face Inks colors are very heavily concentrated with ***pigment particles for thickness, not glycerin***, so it can safely be diluted with a drop of Distilled Water.
