

Pigment of the Month...Apricot Crème A Universal Color
that flatters almost everyone

On Sale for \$15.00 through the month of April.

Apricot Crème is a fabulous warm/neutral lip color that I use on many, many women with various skin tones.

Here's why.

It is beautiful for Fair Complexions, Fitzpatrick 1-2, when you are looking for a gentle but warm result, add a few drops of Pumpkin.

For a Fitzpatrick 2-3, I make it slightly deeper but still a warm shade by adding a few drops of Peach.

For a Fitzpatrick 2-4, I make it more Neutral and Woodsy by adding a few drops of Cayenne.

Every one comes back gorgeous.

* Face Inks colors are very heavily concentrated with pigment particles for thickness, not glycerin, so it can safely be diluted with a drop of Distilled Water, if necessary.

Call today: 1-888-763-2328

Sale ends April 30th, 2009, valid on phone orders only.
