

## #670 Chocolate Mousse

**Chocolate Mousse (#670)** is an extremely popular and versatile FaceInks shade.

Check out Rose Marie's tip and tricks:

### For Eyebrows:

Since **Chocolate Mousse** has a beautiful golden base, you can count on it healing perfectly, especially on Fitzpatrick 2 through 4.

For a medium to dark taupe shade: Use **Chocolate Mousse** straight

For a medium to dark golden brown: Warm up **Chocolate Mousse** with 2-3 drops of **Butterscotch**.

For a more auburn shade: Add a few drops of **Henna** to **Chocolate Mousse**.  
For a deeper reddish tone combine Cocoa with **Chocolate Mousse**. Be sure to keep those drops of **Butterscotch** in both of these formulas!

### For Eyeliner:

For a light to medium taupe shade: Use **Chocolate Mousse** straight. **Chocolate Mousse** will tend to heal lighter as an eyeliner shade.

For use as a secondary color: **Chocolate Mousse** can be used the second color (the lighter shade) for eyeliner and for smudging bottom eyeliner. It creates a gorgeous softer effect.

### Needle Tips:

For Hair Strokes: If you are creating hair strokes the smaller needle groupings travel deeper into the skin, creating a cooler healed result.

Remember: 3-Outlines, 3-Micros, and 4-Flats will heal darker than a 5-Shader or 7-Liner!
