Rose Marie's favorite formulas & needle tips with Moccasin

Moccasin can be used straight on Fitzpatrick 1- 2 skin tones to achieve a Taupe with a hint of warmth. To enhance the warm tones of **Moccasin**, add 1 small drop of **Butterscotch**.

Strawberry Blondes/Natural Redheads with Fitzpatrick 1 -2 skin tones add 1 to 2 drops of **Henna** to **Moccasin**.

Fitzpatrick 2, I often mix ½ and ½ of **Moccasin** and **Sandalwood** with a drop of **Butterscotch**. This darkens the **Moccasin** but maintains the warmth.

Needle Tips...

I tend to use a **3** or **5-Slope** or a **3-Outline** for my hair strokes. Occasionally, I will add more texture with a **Single Needle**, especially if my client has no hair in her brows, at all.

I will use a **5-Shader** for a powdery effect and then run some hair strokes through upon her return in 6 weeks. I may darken **Moccasin** with a little **Sandalwood** for additional contrast and dimension. Perfect your hair stroke technique with the **#3 Slope®** Needle!
