Rose Marie's needle tips:

For clients that want a bit *more drama* and to *maximize the depth* of this shade, I use a 3-Outline needle for the outermost line. To widen the line, I would use a 5 or a 7-Round. If you decide to shade down, I would suggest using the 7-Round.

If my client has a very *full lip and wants strong definition*, I will use the 3-Outline, and then go to a 4-Flat to widen the line and shade down.

If my client wants a softer line, I will choose a 5- or 7-Round to line and a 9-Magnum to shade down.
